EDUCATION

KL University

B.Tech in Computer Science & Engineering

CGPA: **9.25 / 10.0** · Honors through Experiential Learning · Coursework: DSA, OOP, System Design, DBMS

Vijayawada, India

Expected May 2027

TECHNICAL SKILLS

Languages	Java, Python, JavaScript, TypeScript, C
Backend & APIs	Spring Boot, Spring Security, Node.js, Express.js, REST APIs, Microservices
Frontend	React.js, HTML, CSS
Cloud/DevOps	AWS, Azure (Blob Storage, CDN), Docker, Kubernetes, GitHub Actions, CI/CD
Databases	PostgreSQL, MySQL, EF Core, Query Optimization
Concepts	OOP, Data Structures & Algorithms, System Design, Clean Architecture, Agile/Scrum, Security, RBAC, JWT
Tools	Git, GitHub, Linux, Postman, VS Code, Jira

EXPERIENCE

AI/ML Engineering Intern · AICTE Virtual Internship

Jun – Sep 2025

- Built end-to-end ML pipelines in Python; achieved **85%+ classification accuracy** and cut manual processing time by **40%**

PROJECTS

VaultStream – Secure Software Distribution Platform

[\[GitHub\]](#)

- Built a secure software distribution platform using **Java, Spring Boot, PostgreSQL, Docker, and Kubernetes** with REST APIs for managing software artifacts
- Implemented JWT-based authentication, role-based access control, audit logging, and CI/CD workflows for secure and scalable deployment

SmartBasket – AI-Powered Smart Shopping Platform (<https://frontend-blue-mu-35.vercel.app/>)

[\[GitHub\]](#)

- Developed a smart shopping platform using **Java, Spring Boot, React.js, PostgreSQL, and Docker** with features like cart management and product recommendations
- Designed backend APIs, authentication modules, and containerized deployment workflows to support scalable application development

KL-Eats – Campus Food Pre-Ordering Platform (<https://www.kleats.in/>)

[\[GitHub\]](#)

- Built a campus food pre-ordering platform using **Java, Spring Boot, React.js, PostgreSQL, and Docker** to reduce waiting time for students
- Developed REST APIs with authentication and validation, and used GitHub Actions for CI/CD and cloud deployment workflows

UPYOG – Enterprise Workflow Management Platform (<https://upyog-analytics.vercel.app>)

[\[GitHub\]](#)

- Developed an enterprise workflow platform using **Java, Spring Boot, TypeScript, PostgreSQL, and Docker** with modular backend services
- Implemented secure authentication, REST APIs, and containerized deployment setup for better scalability and maintainability

CERTIFICATIONS

- | | |
|------------------------------------|---|
| • AWS Certified Cloud Practitioner | • Aviatrix Multi-Cloud Network Associate (MCNA) |
| • OCI Architect Associate | • MongoDB Database Administrator |

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

- | | |
|--|---|
| • Finalist – Odoo × SPIT Hackathon 2025 | • 600+ DSA problems – LeetCode, CodeChef, Codeforces |
| • Hack2Skill Agentic AI Hackathon 2025 | • 3-star rated · CodeChef |
